Student Faculty Ratio (Part F)

Not in the OHE template. Enter this datum (one number) on the IPEDS data-collection website in Part F after OHE uploads all other data (i.e., Parts A to E).

IPEDS offers on-line assistance, instructions, and a worksheet to help you determine that ratio, but that data will not be collected or saved. My worksheet (if OHE produced one) would have those data entries and calculations saved, and would not have the help.

4-YEAR VERSION

Retention rates will be automatically calculated based on information provided below.

ACADEMIC reporters report retention data as of the institution's official Fall reporting date or as of October 15.
PROGRAM reporters report retention data on students enrolled in the institution at any time between August 1 and October 31.

When reporting data below, remember to:

- Include only FIRST-TIME BACHELOR'S students in your full- and part-time cohorts. Do not include students who transferred into your institution.
- Determine student status (full- or part-time) using Fall 2013 status (e.g. if a student was part-time in Fall 2013, report him or her in the part-time cohort regardless of his or her Fall 2014 status).
- Report in the exclusions boxes the number of students from each cohort who left the institution for any of the following reasons: died or were totally and permanently disabled; to serve in the armed forces (including those called to active duty); to serve with a foreign aid service of the Federal Government (e.g. Peace Corps); or to serve on

The worksheet will subtract exclusions from the original cohorts and use adjusted cohorts for calculating the retention rates.
